

## Parnassus v4.9 release notes February 2017

### New Feature/Improvement

TFS Number	Title	Additional Detail (where needed)
3498	Make PO Number entry mandatory when Site level Mandatory PO checkboxes are checked	Mandatory Purchase Order checkboxes added to the Site screen to allow flexibility selecting Mandatory PO requirement including at: - Registration - Grade Import - Certification - Same Site Transfer - Cross Site Transfer
3520	Venues in Parnassus	Add the ability to create Venues against a Centre
3605	Qualification Set behaviour switch	Current functionality breaks a Qual Set registration when there is already an existing registration with a status of Complete on a Qualification that is contained in the Qual Set and creates standard Qualification registrations for the other Qualifications within the Qual Set. Setting introduced that allows the Qual Set registration behaviour to create a Qual Set Qualification registration where there is a corresponding Qualification Registration with a status of Complete.
3527	Assign existing unit to Qualification is broken for Credit based qualifications	Fixed issue in assigning existing units to credit based qualifications
3532	Cannot change grade on an existing alternative achievement	Issue Fixed
3535	When adding an alternative achievement the Equivalencies may not always be listed for the unit	Issue Fixed
3571	Forgotten Password on login screen not working	Forgotten Password functionality fixed

### Other Changes

TFS Number	Title	Additional Detail (where needed)
3157	Link to XAMS	The link between Parnassus and XAMS has been enhanced to allow learners to sit exams in XAMS without being registered in Parnassus (Walk Ins). When this happens XAMS sends the Learner registrations to Parnassus. The registrations are processed in Parnassus using existing Bulk Registration screens. If the learner does not exist in Parnassus they are created as part of this process. Existing processes are
	Hermes (link to finance) backing sheet report	The backing sheet report produces a breakdown list of the rows used to create the grouped file that is exported to the finance system. This can be used as a backing sheet breakdown to accompany the invoice.
3520	Parnassus Service Layer API Request - Venues [New]	<ul style="list-style-type: none"> <li>• New Get Venue methods</li> <li>• Save PathwayUnitAssessments methods to include Venue</li> </ul>
3529	Parnassus Service Layer API Request - Contactor	Created new Parnassus Contact Service methods allowing for ContactJobRoles to be created, updated and deleted
3546	Parnassus Service Layer API Request - Contact [New]	Created new Parnassus Contact Service methods allowing for Contacts to be created and updated
3570	Parnassus Service Layer API Request - Unit Grades [New]	Added new Service Layer methods for QualificationService GetUnitGrade and GetGrade
